WELCOME

Welcome to our 2023 Factory collection lookbook.

Seahawk Apparel is a well-invested UK premium garment manufacturer with a heritage in protective clothing, modern workwear, corporate embroidery and heat seal branding solutions. The factory is well-equipped to meet the varied demands of modern garment manufacturing processes. Its twenty strong team of skilled machinists and pattern cutters have combined technical expertise, and knowledge of garment making that is adaptable to a diverse range of markets.

WORKWEAR FOR MODERN WORKERS

Here at Seahawk, and working in partnership with the apparel creative team at SSEAMS, we are taking our heritage in making industry workwear to the next level with our ready to order service of 'workwear for modern workers' collection. The collection covers market-relevant modern workwear styles and showcases Seahawk's technical expertise with weatherproofed and performance outerwear. The nine-piece collection, designed and made in Scotland, will showcase British fabric mills and celebrate the craftsmanship of the Seahawk Apparel team.

Our environmental impact strategy of sourcing local fabrics and trims reduces the complexity of the supply chain encouraging quicker to market production for your business. In addition to that, our dedicated team has engineered new garment patterns that you can access reducing complexity and time for your business.

Our ready to order service is waiting for you, and we look forward to forming new, long-lasting working relationships!

Welcome to Seahawk Apparel's Factory selling collection!

The Seahawk Factory selling collection 2023

2023

WORKWEAR FOR MODERN WORKERS

HIGHLIGHTS

The team combined offers years of experience in product creation and supply chain management. If we can take learnings from other countries that have built a strong ecosystem around garment manufacturing and implement those in Scotland, we have a fantastic opportunity to build a sustainable future for a truly skilled workforce. We are excited to see what the future holds.
